

Snowflake

Difficulty :

Pieces :

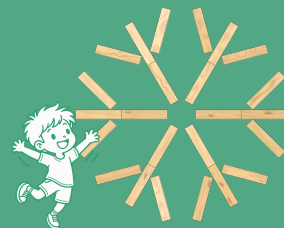

~24

Age :

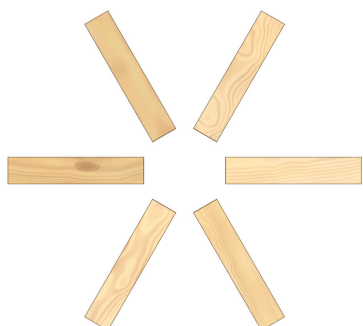

+5

Duration :

~15 min

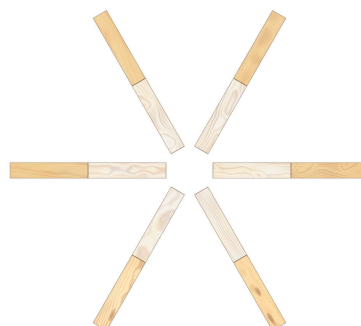

1

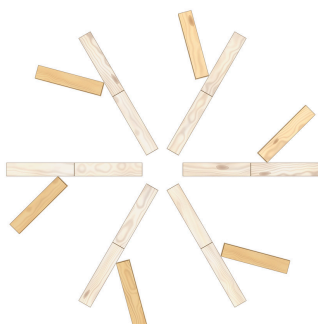

Lay six planks flat in a star, like the spokes of a wheel, without letting them touch in the middle. This is the heart of the snowflake.

2

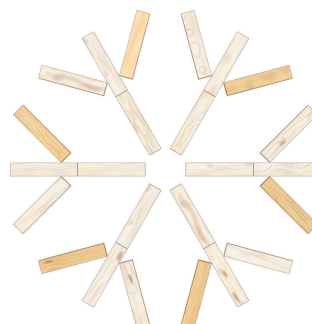

At the end of each spoke, lay a second plank straight on from it. Your snowflake now has six long arms.

3

Near the middle of each arm, lay one Kapla at an angle, on one side only, pointing outwards.

4

Do the same on the other side of each arm: every arm opens into a V. Your snowflake is finished!

BRAVO!
